

16-11 首页交互——上传视频

```
useIndex.js
313
314 // 处理添加操作条的各种事件
315 const handleAddEvent = (item) => {
316   addPopup.value.close()
317   switch (item.name) {
318     case '新建文件夹': ...
321     case '上传图片': ...
333     case '上传视频':
334       uni.chooseVideo({
335         count: 1,
336         success: (res) => {
337           let name = ''
338           let size = 0
339           // 取文件名
340           name = res.tempFilePath.substring(res.tempFilePath.lastIndexOf('/') + 1)
341           size = res.size
342           // 上传
343           upload({
344             path: res.tempFilePath,
345             name,
346             type: 'video',
347             size
348           })
349         }
350       })
351       break;
352   }
353 }
```

注意：路径不要带中文，自行测试视频上传。
